

**Richard C. Bost, P.E.(TX),
P.G.(TX), CGWP (Int'l)**
Principal

Over twenty five years of experience providing regulatory compliance assistance and environmental engineering and hydrogeologic evaluations for commercial, residential and industrial properties, including commercial waste management sites. Completed siting, engineering, permitting and design studies for landfills, land treatment units, waste injection wells, and provided expert testimony regarding compliance issues related to commercial disposal facilities. Completed waste minimization evaluations and projected waste disposal projections for commercial waste disposal and treatment facilities in Texas. Provided compliance assistance and audits of chemical plants, smelters, plating operations, manufacturing facilities, utilities, refineries and oil and gas operations in U.S., Mexico, South America and Europe. Helped develop root cause analysis protocol for improving compliance. Testified in federal and state court cases regarding compliance, siting, site investigation and remediation issues. Principal investigator for waste and wastewater treatment evaluations, development of water supplies, waste site monitoring plans, remedial investigations, ground water recovery and clean up and site closure plans, including detailed design, construction drawings, construction sequence, safety and post closure plans. Managed construction of landfills, wastewater treatment systems and site remediation systems, and RCRA Part B, Clean Water Act and Clean Air Act permitting.

Education

- M.E. Environmental Engineering - Rice University (1978)
- B.A. Environmental Sciences and Engineering - Rice University (1976)
- Completed graduate course work in Public Health Studies, Urban Health - University of Texas (1977-78)
- Medical Specialist Training - Brooks U.S. Army Medical Training Center, Fort Sam Houston (1972-73)
- Medical Laboratory Practitioner Training - Spohn Hospital, Corpus Christi (1970-72)

- National Science Foundation Theoretical Chemistry Internship - Louisiana State University (1971)
- Recipient of grants or research for NSF, EPA, HEW, Texas Air Control Board and API
- Research application reviewer for National Science Foundation
- Health and safety courses (EPA Order 1440.2) - National Spill Control Schools, University of Corpus Christi
- Instructor - Environmental technologies for local colleges and professional societies

Registration

- Registered Professional Engineer in the State of Texas
- Professional Geoscientist (Soils) in the State of Texas
- Certified Ground Water Professional, AGWSE, Int'l

Fields of Competence

- Environmental and Chemical Engineering
- Hydrogeology
- Waste and Wastewater Treatment
- Landfill & Landtreatment Unit Design
- Risk Assessment, Site remediation and NCP compliance
- Asbestos NESHAP & PCB TSCA Compliance
- Underground Injection Control (UIC)
- Natural Resource Damage Assessment
- NPDES, RCRA, Section 404/10 and air permitting
- Toxicology, Epidemiology and Environmental Impact Assessments
- Public health and ecological risk assessments
- Ground water remediation

Professional Affiliations American Chemical Society

- Air & Waste Management Association
- American Society of Civil Engineers
- Association of Ground Water Scientists and Engineers
- ASTM

Work History Example Projects

- Investigation and remedial evaluations for UIC injection well facilities in Texas and Louisiana
- No Migration Assessments for UIC injection well facilities in Texas
- Re-evaluation of maximum operating pressures for UIC injection wells in Texas.
- Siting Studies, Permitting and Engineering for commercial landfills, transfer stations, waste treatment units and land treatment units in Texas and Louisiana
- Risk and Natural Resource Damage Assessment for former landfill facilities in Texas
- Technical advisor for dispute between parties associated with permitting commercial landfill facilities in Arkansas
- Due diligence assessment for UIC injection well facilities in Texas.
- Investigation of effect of fire on UIC injection well in Louisiana.
- Investigation of brine injection well activities and causes of saline water intrusion in aquifers in Texas, Louisiana and Oklahoma.
- Investigation of effects of hydrocarbon salt dome storage well operation and saline water intrusion near Freeport, Texas.
- Historical compliance review of injection well operation in conjunction with petroleum refinery operations.
- Comprehensive review of UIC injection well waste injection activities in Texas Coastal Bend over a period of 6 years.
- Evaluation of use of UIC permit program for carbon sequestration well permitting.
- Historical review of carbon dioxide injection for an enhanced oil recovery operation.
- Alternative evaluation of waste management and disposal options for an East Texas Industrial Complex.
- Alternative evaluation of waste management and disposal options for an oil and gas equipment manufacturing operation in Harris County.
- Evaluation of alternatives to deep well injection for an international manufacturing corporation.
- Review of potential liabilities regarding a Texas Federal Superfund site where a deep injection well was not part of the superfund site.
- Review of historical operations of a deep well injection site in Louisiana related to a Federal Superfund Landfill Site.
- Permitting for chlorinated solvent sites, dry cleaner releases, and aerospace industrial part manufacturing operations using chlorinated solvents in Texas, Louisiana, South Carolina, California, and Oklahoma.
- Provided consulting services regarding closure of dry cleaner sites at multiple locations in Texas. Obtained risk-based closure of dry cleaner site over Edwards Aquifer.
- Provided expert testimony regarding chlorinated solvent sites in Texas, California, and South Carolina.
- Provided environmental compliance, waste unit closure, and permitting assistance to sites in South Carolina, Alabama, Mississippi, Louisiana, Arkansas, Missouri, Washington, Oregon, Illinois, Missouri and Texas.
- Provided technical assistance to legal counsel regarding risks from alleged exposure in residential areas near the United Creosote Superfund Site, a refinery in Lake Charles, LA, and a Superfund Site near Oklahoma City, OK. Compared site risks with ordinary household and daily activity risks.
- Directed the investigation and remediation of over 60 residential properties in Louisiana.
- Managed or participated in the investigation and abatement evaluation for lead at state and federal Superfund sites.
- Helped address regulatory concerns associated with creosote for Arkwood (AR), Koppers (SC), Higgins (TX), Lincoln Creosote (LA), Georgia Pacific/Louisiana Pacific (LA), Crown Zellerbach (LA), and Union Pacific (CA, TX), CSXS (IL, MO).
- Historical review of salt water reinjection of secondary oil recovery via flooding in East Texas Oil Field.
- Helped develop evidence regarding the inadequacy of compliance measures and abatement procedures by an oil and gas company in East Texas.
- Managed a remedial design for the Vertac Superfund site north of Little Rock, Arkansas, a former Agent Orange manufacturing facility. Provided expert testimony regarding comparative site risks and dioxin fate and transport issues for trial in which Federal Judge overruled EPA's dioxin strategy and remedy selection.
- Managed remedial investigation, risk assessment, feasibility study and remedial plan development for the Hardage Superfund site, an industrial landfill south of Oklahoma City, Oklahoma. Addressed dioxin, DNAPL migration issues and long-term reliability of remedy. Provided expert testimony regarding site risks at trial in which a Federal Judge overturned EPA's remedy selection.
- Provided oversight of remedial investigation and performed risk assessment and remedial evaluation for a wood treating Superfund site in Charleston, South Carolina. Addressed potential for wood-treating chemicals to migrate to adjacent estuary marshes and river. Provided expert testimony in

Federal CERCLA trial and jury tort trial regarding site risks, natural resource damages and preferred remedy. Judge ruled in favor of ERM's clients and jury ruled in a separate tort claim in favor of ERM's clients.

- Environmental impact assessments, water supply development, site and route selection studies and permitting for oil and gas development projects, sour gas process plants, industrial plants, onshore and offshore pipelines, power plants, mines and transmission lines in the United States and Central and South America.
- Project consultant regarding aquifer impacts, aquifer depletion, impact of oil and gas operations, emergency spill response practices, remedial site investigations, cleanup technologies, economic analyses, land use evaluations, insurance claims, and human and ecological risk assessments for sites in multiple states.
- Provided expert testimony regarding fingerprinting methodology for differentiating between creosote and other hydrocarbons and for differentiating between different sources of dioxins.
- Helped develop the environmental use of CPT and hydropunch technologies, statistically-based sampling, field screening, GIS data bases, remote sensing, advanced soil gas surveys and geophysical logging, fingerprinting, slant hole drilling, DNAPL recovery, hydrofracturing, in situ bioremediation and site containment strategies for hazardous waste sites primarily in Arkansas, Louisiana, Mississippi, and Texas.
- Waste compatibility assessments, ground water monitoring plans, drilling supervision, hydrogeologic engineering reports, and RCRA regulatory interpretation for industrial facilities.
- Designed slurry cut-off walls for containment of wastes at sites in Louisiana and Texas.
- Assessments of potential waste constituent migration to drinking water supplies and environmental and public health risk assessment and economic analysis of impacts to nearby receptors and natural resources.
- Designed and implemented aquifer restoration programs at gas stations and industrial facilities. Work History Example Projects (Cont'd)
- Hydrogeologic assessment of dissolved constituents in ground water at multiple sites in the United States. Included investigation and computer modeling to assess migration and to evaluate alternative cleanup strategies, biodegradation studies, risk assessments and implementation of cleanup plans.
- Environmental studies for Superfund sites including RI, FS or RI/FS elements for Crystal Chemical, Old Inger, Geneva Industries, Petro Processors, Inc., Combustion, Inc., Bio-Ecology, Bayou Sorrel, Odessa I and II, San Jacinto Tar Pits, and Hardage.
- Comprehensive evaluation of EPA's characterization and remedy for the Royal Hardage site including completing 4500 feet of continuous coring and other advanced technology field studies, advanced soil gas surveys, advanced geophysical studies, microseismic studies, T.V. camera slant hole logging, tracer studies, and age dating.
- Emergency response actions at Superfund and train derailment sites including alternate water supply, security fence, cap repair and waste removal.
- Due diligence and compliance audits and environmental site assessments for over 1500 sites in the United States, Central and South America, Europe, Southeast Asia, Africa and the Middle East.
- Part B permitting and compliance assessments for commercial and industrial properties in the U.S.
- Hydrogeologic investigations, closure plans and post closure plans for numerous waste disposal facilities.
- Alternative wastewater treatment and sludge management procedures to improve effluent quality for the oil and gas industry, refineries, chemical plants, steel industry utilities and lignite and metal mineral mines.
- Fatal flaw studies, hydrologic impact assessments, environmental impact assessments and permitting for new facilities in the U.S. and elsewhere.
- Assessments of water rights, stream assimilative capacity, flood control and make-up water quality constraints and permitting problems for power station and industrial plant expansions.

Recent Court Cases with Trial Testimony

- March, 2007, Lyondell Chemical Company, et al and US v. Albemarle Corporation et al, Beaumont Texas, US District Court, Eastern District of Texas, Civil Action No. 1:01-CV-890 (consolidated with 1:02-CV-003 and 1:03-CV-225), re: allocation methodology, consistency with NCP of cost claim, contributions of third party plaintiffs to Turtle Bayou Superfund Site, accepted historic practices, and reasonableness of cost claims of ARCO/Lyondell and Tenneco parties as well as reasonableness of proposed remedy and recent site investigation costs.
- May 2, 2003, Austin Texas, District Court of Travis County, Texas, 126th Judicial District, Cause No. 97-12163, re: risk posed by metals at landfills operating from 1960s to present, landfill gas issues, risk posed by unlined landfill and residential impact issues.
- January 21, 2003, Kern County Land Company, et al vs California Union Insurance Company, et al. Superior Court of the State of California, Ct of San Francisco No. 991097. re: insurance cost claims for metals releases due to flooding of San Jacinto River.

- July 2002, Adams v Yellowstone Pipeline et al. Montana Western District State Court, re: Superfund cost claims, tort claims, and risk posed, lack of damages to private property owners and no natural resource damages.
- February 1998, Gould vs. National Lead, et al., re: regulatory compliance programs and emissions/releases from wood-treating facilities, smelters, chlorophenoxy herbicide plants, utilities, and other industrial and urban sources of potentially hazardous substances and dioxins.
- January-February 1997, Orval Hall Excavating Co. v. Texas Industries, Inc., et al., 236th Judicial District Court, District of Tarrant County, Texas, Case No. 236-150113-93, re: regulatory compliance, refinery wastes, petroleum fingerprinting, fate and transport, historical photo interpretation, site risks and remedial requirements.

Recent Deposition Testimony

- October 2006, Lyondell Chemical Company, et al and US v. Albemarle Corporation et al, Beaumont Texas, US District Court, Eastern District of Texas, Civil Action No. 1:01-CV-890 (consolidated with 1:02-CV-003 and 1:03-CV-225), re: allocation methodology, consistency with NCP of cost claim, contributions of third party plaintiffs to Turtle Bayou Superfund Site, accepted historic practices, and reasonableness of cost claims of ARCO/Lyondell and Tenneco parties as well as reasonableness of proposed remedy and recent site investigation costs.
- January 19, 2003; December 4-6, 2002 and October 16-18, 2002, Kern County Land Co vs Ca Union Insurance, Superior Court of the State of California, Ct of San Francisco No. 991097, re: Recovery of cost claims and insurance coverage triggers.
- November 11, 2002, Warehouse Associates Corporate Centre II, Inc et al v Celotex Corporation et al, US Bankruptcy Court, Middle District of Florida Ch 11 Case No. 90-100016/17-8G1 and District Court of Harris County, TX 127th Judicial District, re: impacts of metals and asbestos in fill soil and from historical operations and whether metals and asbestos limited redevelopment of property and posed risks to workers and adjacent properties.
- May 2002, Globus Industrial Partners, Ltd. V. Donald Finn, United Pump Supply, Inc., and Milton B. Levy & Sons, Plumbing, Inc. State Dist Ct, Dallas, TX, re impacts of historical activities on an industrial property, whether remediation was already required before recent organic chemical spill impacted surficials soil and shallow ground water, and fingerprinting/identification of other sources.
- September 18-19 and October 16, 2001, Andrews, et al. v. Kerr-McGee, et al., U. S. District Court for the Northern District of Mississippi, Eastern Division, Civil Action No. 1:00CV00158-D-A, re: site and community investigations, public health data and exposure risks.
- June 26-27, 2001, U.S. and State of Texas v. Atlantic Richfield Company, et al. v. GATX Terminals Corporation, et al., U. S. District Court for the Southern District of Texas, Houston Division, Case No. 98-CV-0408, re: historical operations, wastes management practices and waste disposal contributions at the Sikes Superfund Site.
- June 7, 2001, Vernon Hughes, et al v. ETSWDC, District Court of Rusk County, 4th Judicial District, Cause No. 88-02-064, re: site risks, effects of historical oil & gas operations and other sources of regulated substances.
- December 2000, Baylor Health Care System v. Maxtech Holdings, Inc. and Maxim Technologies, Inc. in the 116th Judicial District of Dallas, Texas, Cause No. DV99-4247-F, re: Sources of Perchloroethane releases, adequacy of investigations and assessments, risks of exposure, site remedial costs.
- May 2000, Nations Bank, et al. v Lockheed Corporation, U. S. District Court of South Carolina, Eastern Division, re: historical sources of TCE releases, compliance history, adequacy of site investigation and remediation, site risks, remediation costs.
- June 8 and August 7, 1997, Jimmy and Brenda Bonnette, et al. v. CONOCO, Inc., et al., 14th Judicial District Court, Parish of Calcasieu, State of Louisiana, Case No. 95-4112, re: asbestos investigations, risks, regulatory compliance and abatement procedures.
- June 10, 1997 and January 7, 1997, Jerry Buse, Belinda Buse, and Ray Evans vs. Reef Industries, Incorporated, and Remedial Construction Services, Inc., Harris County District Court, 189th Judicial District, Case No. 95-08842, re: regulatory compliance, sources of contaminants and their distribution in ground water.
- July 15 and October 29, 1996. Orval Hall Excavating Co. v. Texas Industries, Inc., et al., 236th Judicial District Court, District of Tarrant County, Texas, Case No. 236-150113-93, re: regulatory compliance, creosote and refinery wastes, petroleum fingerprinting, fate and transport, historical photo interpretation, site risks and remedial requirements.
- January 24-26, 1996, Cavenham Forest Industries, Inc. vs. Louisiana Pacific Corporation, et al., U.S. District Court Western District of Louisiana, Case No. CV 92-1888, Alexandria Division, re: historical operations, aerial photographic interpretation, extent of migration, allocation of liability and consistency with the NCP.

Submission of Expert Reports for Trial

- January 20, 2004 and December 19, 2003, Allocation Opinions and Opinions Concerning Liability for Superfund Response Costs at the Turtle Bayou Superfund Site, Liberty, Texas, Lyondell Chemical Co, et al, vs Albemarle Corporation, et al, US District Court, Eastern District of Texas, Beaumont Division, Civil Action No. 01:01-CV-890, consolidated with 01:02-CV-003, re: allocation issues and equitable factors.
- November 2003, Opinions of Richard Bost Concerning Liability and Remediation Issues, , CHBP, Ltd. v. Comerica Bank - Texas, et al in the District Court of Harris County, Texas, 333rd Judicial District, Cause No. 2001-28822, re: timing and causes of dry cleaner releases, risks posed, evidence of natural attenuation, remedial requirements, and EPA policies.
- October, 2002 Celotex Corp v Warehouse Associates Development, Inc US District Court, Sou Dist of Texas, Houston Div, re: lead, arsenic, dioxin, asbestos, and geotechnical and structural issues related to masonry construction over fill with metals and transite and associated real estate cost claims.
- July 5, 2002, Supplemental Opinions and May 14, 2002, Opinions of Richard C. Bost Concerning Language in an Action Alert Waste Management of Texas, Inc., District Court of Travis County, Texas, 126th Judicial District, re: landfill permitting, compliance and operational requirements and risks posed by metals and other substances from old and unlined landfills and new landfills.
- July 2002, Opinions re EPA Benzene NESHAAP allegations against an Illinois Refinery. Federal District Court, Southern Illinois, re: compliance issues and errors in government's export analyses.
- May 15, 2002, Opinions of Richard C. Bost regarding commercial municipal landfills and ground water issues in San Antonio and Austin, Texas for Jackson Walker, L.L.P.
- April 5, 2002, Opinions of Richard C. Bost and Mark W. Cheesman Concerning Drums Gifted to Brazos Masonry from Featherlite Building Products, Round Rock, Texas for Watson, Caraway, Harrington, Nelson, Midkiff & Lunningham, L.L.P.
- August 28, 2001, Opinions of Richard C. Bost Concerning the Kerr-McGee Forest Products Facility in Columbus, Mississippi.
- February 15, 2001 and June 21, 2001, Opinions of Richard C. Bost and Supplemental Opinions Concerning Liability and Allocation of Superfund Response Costs and the Contributions of Ethyl and GATX to the Sikes Superfund Site, Crosby, Texas.
- May 2001, Opinions of Richard C. Bost, re: site risks, effects of oil and gas operations and other sources of regulated substances, East Texas Oil Field, for Harbour, Smith, Harris & Merritt.
- May 2000, Opinions of Richard C. Bost Concerning Sources of Releases and Remedial Cost for Lockheed Pace Street Facility, Nations Bank, et al. v Lockheed Corporation, U.S. District Court of South Carolina, Eastern Division for Hunton & Williams.
- May 1999, Opinions of Richard C. Bost Concerning Necessity of Remediation and Reasonableness of Costs Incurred for an Import/Export Facility, Inserv v. American Microtrace, Inc. (AMI) for Atlas & Hall, LLP, McAllen, Texas.
- May 1999, Technical Opinions of Richard C. Bost Concerning Causes, Remedial Methods, and Allocation of Liability for Mud Releases into Drinking Water Aquifer, San Antonio Water System v. Layne Christensen Company f/k/a Layne, Inc. d/b/a/ Layne-Texas, A Division of Layne, Inc. and MO-VAC Service Company for Locke, Liddell & Sapp, LLP, Houston, Texas.
- February 1999, Opinions of Richard C. Bost Concerning Allocation of Liability and Remedial Cost for Perchloroethylene Releases from Transporter and Underground Fuel Storage Releases, Globus Industrial Partners, Ltd. V. Donald Finn, United Pump Supply, Inc., and Milton B. Levy & Sons, Plumbing, Inc. for Calhoun & Stacy, PLLC, Dallas, Texas.
- January 1999, Opinions of Richard C. Bost Concerning Nature of Wastes Disposed, Suitability of Disposal Cell, Disposal Practices, Potential for Migration and Related Off-Site Risks, Gabriela C. Aguirre et al. vs. Browning-Ferris Industries, Inc., et al. for Chaves, Gonzales & Hoblit, LLP, Corpus Christi, Texas.
- February 19, 1997, Updated Opinions of Richard C. Bost Concerning Remediation of a Chlorinated Solvent Plume at 900 & 910 Gemini Avenue Properties, Clear Lake City, Texas for Gardere & Wynne, L.L.P., Tulsa, Oklahoma.
- February 7, 1997, Opinions of Richard C. Bost Concerning Soil and Ground Water Contamination at Reef Industries, Inc., Mykawa Road Facility, Houston, Texas for Liddell, Sapp, Zivley, Hill & LaBoon, L.L.P., Houston, Texas.
- December 5, 1996, Opinions of Richard C. Bost Concerning Remediation of a Chlorinated Solvent Plume at 900 & 910 Gemini Avenue Properties, Clear Lake City, Texas for Gardere & Wynne, L.L.P., Tulsa, Oklahoma.
- August 31, 1996, Evaluation of the CERCLA Claim by Kansas City Southern Railway for the Port Arthur, Texas Port Drum Site, for Hutcheson & Grundy, L.L.P.
- August 5, 1996, Updated Opinions of Richard C. Bost Concerning Site Conditions and Remedial Requirements of the Property, Orval Hall Excavating,

Inc. Property, Fort Worth, Texas for Brown McCarroll & Oaks Hartline, L.L.P., Dallas, Texas.

- May 31, 1996, Opinions of Richard C. Bost Concerning Site Conditions and Remedial Requirements of the Property, Orval Hall Excavating, Inc. Property, Fort Worth, Texas for Brown McCarroll & Oaks Hartline, L.L.P., Dallas, Texas.
- May 24, 1996, Opinions of Richard C. Bost Concerning the NCP Compliance of the Site Investigation and Remediation Work, AAF-McQuay Inc. for Henry, Meier, Jones & Johnson, L.L.P., Dallas, Texas.

Honors and Awards

- Hugh Scott Cameron Community Service Award
- Boy Scouts of America:
 - Eagle Scout
 - God and Country Awards
 - Order of the Arrow
- 1997 ERM Excellence Award in Risk-Based Closures
- 1998 ERM Excellence Award in Ground Water Remediation
- 1999 ERM Excellence Award in Environmental Forensics Fingerprinting
